## Model kit features

### Pocket sized firepower

To cope with the competition between increasingly effective armor and weapons capable of penetrating them, in 1943 Ansaldo presented to the Regio Esercito a 105mm cannon mounted on the chassis of the M42 self-propelled gun. Lower by 10 cm compared to its predecessor despite the increased caliber, it earns the nickname 'Bassotto' (Dachshund).

The 1:35 scale model also follows the footsteps of the original, featuring new interiors, cannon, and chassis.
